PROFILE

I am a Web Developer, with almost 1+ years of experience in the web app ecosystem, specializing in the development of attractive and responsive user interface Front End Development. I am always motivated to improve my knowledge and abilities, especially in technology major. I am known as a person who is responsible and dedicated to developing projects. I am very interested in being able to work in a positive environment surrounded by great people.

I also want to gain new experiences not only in technology but in all sectors.
